

Equipment Sales

YOUR TOTAL SERVICE PROVIDER FOR YOUR MISSION CRITICAL NEEDS

Keeping your critical power network running and operating efficiently is your goal. Finding best in class equipment at competitive prices is JT Packard's solution. Your mission critical facility can rely on our 3 million dollars worth of standing inventory to get you the parts and equipment when you need them, where you need them. Whether you are looking for UPSs, Generators, Precision Cooling, or Switchgear, JT Packard can offer you choices. Our critical power inventory consists of just about every make and model giving you the ability to select the piece of equipment that is specifically suited for your needs. You will also benefit from the strategic partnerships JT Packard has formed with manufacturers including GE, Mitsubishi, and Cyberex. In addition to our equipment sales, you will find JT Packard has additional services aimed at optimizing your critical power environment. These services include a continuous battery monitoring program aimed at proactively recognizing battery failures before they occur. JT Packard is also a sales and service provider for your HVAC systems. JT Packard is truly your one-stop shop for mission critical needs.
