

## HVAC

### WHY JT PACKARD?

JT Packard is your single source for the very best in HVAC service for mission critical facilities. From cooling towers, pumps, boilers and more, JT Packard can maintain your HVAC system regardless of brand or size. We can assess your facility's energy needs and install and service energy saving solutions including micro turbines, variable speed drives, and building automation and control systems.

### SERVICE

Our turnkey optimization program features energy efficient heating, ventilating, air conditioning, temporary cooling, lighting and controls systems to fit your facility. We offer scheduled maintenance visits to reduce your repair and emergency expenses, maintain uptime, and protect your investment. JT Packard and our network of HVAC experts work alongside your staff to ensure your system is operating at peak performance. Our services are designed to provide you with a turnkey support program which includes:

- Assessment
- Project management
- System design
- Start-up and extended warranty
- Equipment selection
- Service contracts

### SALES

Whether you need to replace a critical piece of HVAC equipment or your entire existing system, you can be sure that JT Packard has the resource available to make equipment recommendations that best fit your specific needs. If equipment replacement becomes necessary JT Packard offers services that can:

- Replace components, including compressors and or motors
- Keep downtime to a minimum
- Include key OEM components

By utilizing JT Packard for both your critical power and HVAC needs you are able to consolidate service coordination and enhance accountability by having one point of contact. With a national network of technicians and Power Partners at our disposal, JT Packard will be there with quick and efficient service. Depend on JT Packard to make sure you are getting the most out of your facility.
