

A UNIQUE TURNKEY SOLUTIONS APPROACH TO MEETING ALL OF YOUR POWER NEEDS

When you hire JT Packard to service your generators, you are choosing a nationwide partner who services all makes and models including Caterpillar, Cummins/Onan, Detroit Diesel, Generac, Kohler, Katolight and John Deere. We save you time and money by fulfilling your need for a single source provider for all of your critical power needs:

- One phone call coordinates service for your generator and UPS simultaneously to maximize uptime and maintenance windows
- One toll free phone number for scheduling and emergency calls: 24 hour coverage, 365 days a year

SALES AND INSTALLATION

With a full line of generators and automatic transfer switches, from multiple manufacturers available for purchase, we have the inventory you need to keep your critical power network running. A full turnkey installation package for your generator and ATS needs are also available. Each installa-

tion package will meet local building codes along with National Fire Protection Agency and Air Quality control measures. Most of the major brands you are looking for can be found with JT Packard.

LOAD BANK TESTING

Load Bank testing ensures that your unit will perform at full load, protect against “wet stacking” carbon buildup and comply with local and state operating regulations. We provide load bank testing for generators of all sizes from 1KW up to 2.5 megawatt, including parallel units. After each load test we will provide documentation verifying the performance of the unit at variable loads.

EPA COMPLIANCE

JT Packard provides solutions for the ever evolving EPA and air quality measures by providing professional installation of diesel particulate filters and catalyst systems per manufacture specifications. We assist with compliance logs, reporting, and run time documentation. Proper disposal and recycling certificates of non-consumable waste is also a priority.

FEATURES & BENEFITS

- Flexible maintenance contracts to meet your specific requirements
- Coolant, fuel and oil analysis for predictive maintenance
- Fuel treatment and polishing down to 2 microns for up to 50,000 gallons of fuel
- Full capacity for all major repairs including engine rebuilds, and generator rewinds
- Web site customer portal with access to service reports, scheduling and remedial repair quotes with comprehensive analysis and photographs of parts to be repaired or replaced
- Nationwide fueling coverage
- National generator rental coverage for downed units or disaster relief
- Complete electrical testing

ENGINE PARTS

- Caterpillar
- Altronic Ignitions
- Em
- Generac
- GTE Exhaust Silencers
- Impco Fuel Systems
- Mitsubishi

GENERATOR CONTROLS

- Barber Coleman Controls
- Basler Control Panels
- Crompton Instruments
- Customized PLC Controls
- Datacom Gauges
- ECU Controls
- Governors of America
- Murphy Switches/Controls
- Nason Switches
- Woodward Controls

SUPPORT SERVICES

- Certified Power Generation Training
- Complete Shop & Field Service
- Custom Maintenance Contracts
- Diesel Fuel Testing & Cleaning
- Engine/Generator Overhaul Capability
- In House Parallel System Start Up
- Reactive/Resistive Load Banking
- Rental Generators & Cable

GENERATOR PARTS

- Basler Voltage Regulators
- Generac
- Kato Generators
- Marathon Generators
- Markon Sawafuji
- Stamford Newage Generators

SWITCHGEAR/TRANSFER SWITCHES

- ASCO Products
- Generac
- Russelectric
- Thomson Technologies
- Zenith

JT Packard is your source for full power generation systems. With service offerings which span 8kW through 2000kW individual units, service contracts with every major engine generator manufacturer, and technicians experienced with paralleling systems, we are your true one-stop shop for generator power solutions.

When you need new equipment or engines be sure to trust our product offerings from top manufactures like Mitsubishi, Caterpillar, Cummins/Onan, Detroit, and John Deere. We also carry AC generators from Marathon Electric, Stamford Newage, Leroy Somer, and Kato. As a product sales and parts distributor for both Generac Power Systems and Mitsubishi Engines, we'll have the parts to get you up and running quickly and efficiently.

We understand the importance of your generator systems, so we support it with one of the largest portable rental generator fleets in the nation. You will find our fleet is fully complemented with disconnect switches and distribution panels for your convenience. Our rented generators are also available with full set up and emergency response services which truly deliver power when you need it, where you need it.
